

# FREE Memory Writing Project in September

Would you like to share your memories with others and even see them in print completely free? Everyone has stories to tell, and I would love to hear yours. This 6 month project will be delivered on Zoom and consist of a 2 hour interactive writing workshop once a month, followed by a 1-2-1 session each month to discuss your writing and to help participants find, tell and write their stories. A selection of these will be published in an anthology and shared with local communities at the end of the project. **No previous writing experience is needed.**
